# SPORT PLAST

Manufacturer of plastic decoys over 60 years experiences as garante of your purchase

SPORT PLAST srl is the most respected decoys producer in the world for over 60 years. SPORT PLAST, Italian company, make over 150 different types of hunting decoys, encompassing over 70 different specie of birds.

Our decoys are recognized the best working decoys from all experts hunters.

Our technicals are steadily busy to improvement of our products to give to hunters a growing functionality on all our articles.

One important innovation consist in the creation of small cavities in the bottom of floater decoys that reduce the frantic pitching and rolling extremely counterproductive for the hunting of waterflows birds.

Another feature is the pratical and fast system to roll up the lanyard around the body of the decoys for an easy set-up and retrieve from water. As further guarantee that we give to all our customers is the assistance in case of defectives and damages in our products.

---

SPORT PLAST srl è il produttore di stampi da caccia più rispettato al mondo da oltre 60 anni. SPORT PLAST, azienda italiana, produce oltre 150 diversi tipi di richiami da caccia, che comprendono oltre 70 diverse specie di uccelli.

I nostri stampi sono riconosciuti come i migliori da tutti i cacciatori esperti.

I nostri tecnici sono costantemente impegnati a migliorare i nostri prodotti per offrire ai cacciatori una crescente funzionalità su tutti i nostri articoli.

Un'importante innovazione consiste nella creazione di piccole cavità sul fondo degli stampi galleggianti che riducono efficacemente il frenetico beccheggio e rollio estremamente controproducenti per la caccia agli uccelli acquatici.

Un'altra caratteristica è il sistema pratico e veloce per arrotolare il cordino attorno al corpo degli stampi per un facile posizionamento in acqua e successivo recupero.

Come ulteriore garanzia che diamo a tutti i nostri clienti è l'assistenza in caso di difetti e danni ai nostri prodotti.

*Easy rolling up/down line*

*Multicavity System*

# LOW COST FLOATER DECOYS LIFE-SIZE Serie

Designed to combine quality with a cheaper price due to less details painted. These decoys maintain the look like and feature main of the specie. As the other decoys has the multy cavity in the bottm that help to give to decoy more stability.

## SCARECROW Decoys

Several kinds of SCARECROW decoys, used to fight the pest birds that damage fruits and vegetables garden. The flying decoys, can be fixing in a pole and with a little breeze seems the flying of real birds predators. This is very effective. For the maximum result it is very important change the scarecrow position for not habituate the real birds. Other kinds of scarecrows, have base in the ground as Peregrin Falcon, American and European Eagle, Owl and Little Owl. About these last, there is also the beating wings version by hand.

## FLUORESCENT OWL Decoys

SPORT PLAST, leader in hunting decoys and lawn ornaments birds, has tested and developed a new line scarecrows. Against the damages from pest birds in many kind of fruits and vegetables garden and other purpose. As well protection from domestic pigeons, herring-gulls, crows, magpies, starling, heron, Egret, (for fish farm) ecc...

This fluorescent Owl is very effective, already tested and approved from many farmers and professionals experts.

You can hang it with a lanyard that with little breeze move or you can put it in the ground.

A second model has wings attached with springs that increase the scare effect with wind.

For the maximum result, we suggest, to change the position frequently for not habituate the real birds.

The dead birds series decoys are very effective against the pest birds in several contexts: protection of vegetable culture in agriculture and boats for example.

For a best result we suggest to change them position because otherwise the real birds take confidence with the decoy.

They can be used stand alone or together another predator decoy to increase the result. For example, an Owl with hanging dead Hooded Crow is very effective for hunting Hooded Crow.

Very effective for  
boats protection

# CORMORANT Decoys

On specific request of many fish farmer, we have done a series of various models of Cormorants. This predator gives incalculable damage to the fish in the lakes, in the marshes and in the fish farming areas. For defense we suggest to put some Cormorants decoys accompanied with one rotating wings decoy for having an extremely lifelike.
